

# Natural History Museum in Berlin

年 班 號 姓名：

## A. Theme words :

dinosaur 恐龍	exhibit 展覽物	specimen 標本	reptile 爬蟲類
disappear 消失	extinct 滅絕的	endangered 瀕臨絕種的	

## B. Fill in.

Today, I visited a museum by watching a video and saw many exhibits in the Dinosaur Hall. At first, I saw the \_\_\_\_\_. Its name means not only long but also long, so it is the longest and biggest specimen there. And then, I saw \_\_\_\_\_. It's amazing to see the king of the dinosaur because I have had a toy dinosaur since I was a kid. Finally, I saw the rarest specimen, \_\_\_\_\_. To my surprise, it is not just a bird because it also has teeth like a reptile. What's more, with the help of the \_\_\_\_\_, I see many dinosaurs eating and moving as if they are alive. I really have a good time watching the video. I hope I can visit the Natural History Museum in person one day.

## C. Answer the questions. (Either in English or in Chinese)

- (1) According to the video, what is the purpose of making specimens in the Natural History Museum?
- (2) What can we do to help save endangered animals?
- (3) To make people know endangered animals more, they create animals into specimens to show in the museum. If you can create a specimen to show, which animal will you make? Now, it's your turn!

Draw your specimen in the following frame and tell us your reason why you want to make the specimen (at least 20 words).

( 請將設計及說明填寫於背面 )

Name :

A large rectangular area with a dashed border, intended for writing a name.

Reason :

A large rectangular area with a dashed border, intended for writing a reason.
